

Step 1: Access API Menu

Desktop Required

This configuration cannot be performed on the mobile app. Use a Desktop PC.

Locate Settings

- 1 Log in to your **Blofin** account.
- 2 Hover over the **Profile Icon**.
- 3 Select "**API**" from the dropdown.

Step 2: Create API Key

API Management

Each account can create up to 30 API keys.
For security reasons, do not share or reveal your API keys to non-trusted third parties.

API Type

- Transaction API Key - Apply Now
- API Key for Third-Party Application**

Create an API Key

API Key Usage

☒ Connect to Third-Party Applications ☐ API Transaction

Application Name

Insilico Terminal

API Key Name

InsilicoBlofin

Permissions

☐ Read ☒ Trade ☐ Withdraw ☐ Transfer

Passphrase

My_Passphrase

IP (Optional)

*Unlimited API keys will be expired after 90 days. *One API Key could link to 20 IP addresses at most.

18.180.195.116 13.114.235.19 18.181.102.105 35.75.215.133 54.65.212.219 52.196.177.46 35.76.223.130
35.77.250.223 18.180.239.100 3.113.78.104 18.181.158.39 54.65.86.241 52.199.152.174 54.250.232.158 52.68.56.104
54.64.139.96 52.194.90.124 13.113.149.88 52.199.229.99 43.206.9.80

Cancel Next

Initialize Key

Once on the API Management page, click the orange **"+ Create API Key"** button located in the top right corner.

This will launch the configuration wizard to link our bot to your account.

Step 3: Configuration Screen #1 of 3

Fill Form Details

Keep "Connect to Third-Party Applications checked

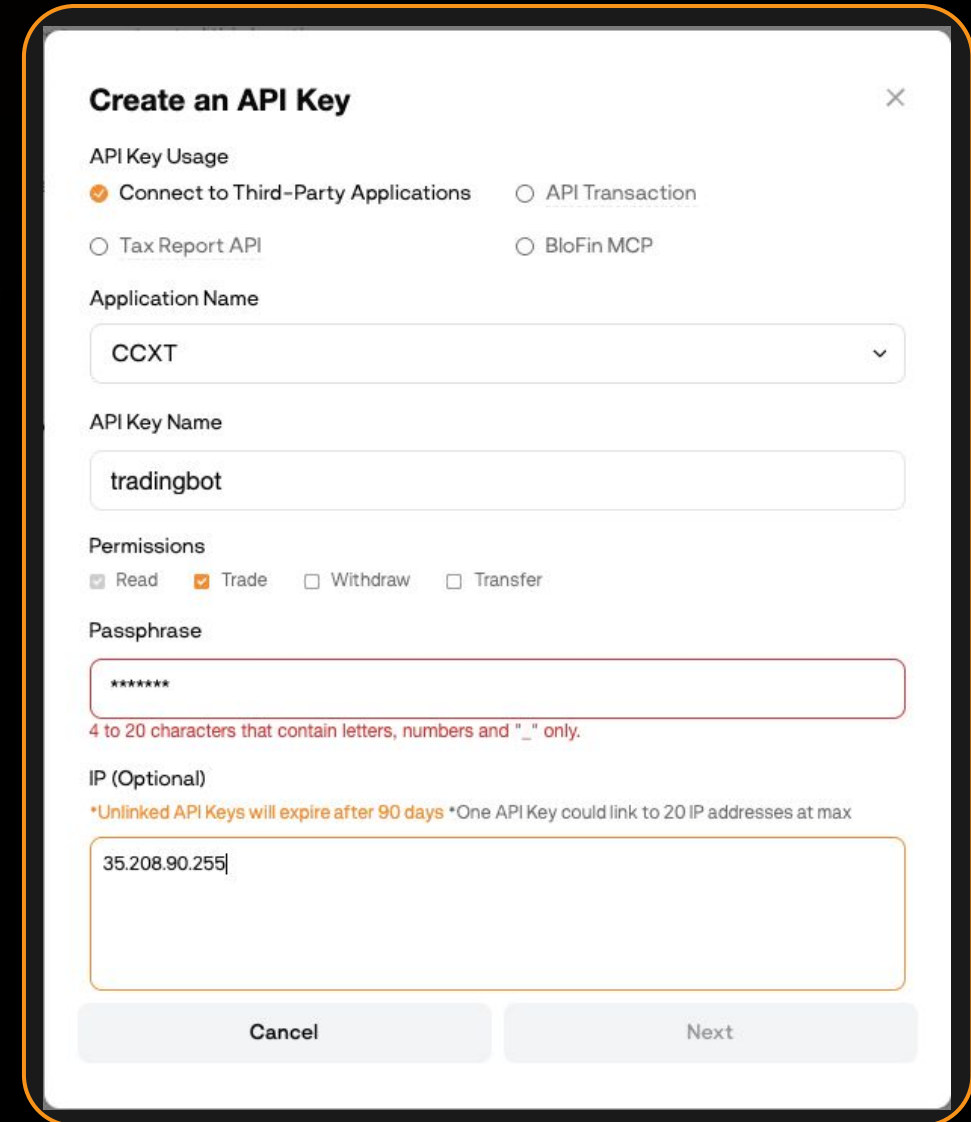

App Name: Select "CCXT".

API Key Name: e.g., "MetaverseSherpaBot".

Permissions: Check "Trade" only.

Passphrase: Create a unique code and store it securely.

IP: 35.208.90.255 (Ensures only our bot can use this API key)

The screenshot shows a 'Create an API Key' dialog box with a close button (X) in the top right corner. The form contains the following fields and options:

- API Key Usage:** Four radio button options: 'Connect to Third-Party Applications' (selected), 'API Transaction', 'Tax Report API', and 'BloFin MCP'.
- Application Name:** A dropdown menu with 'CCXT' selected.
- API Key Name:** A text input field containing 'tradingbot'.
- Permissions:** Four checkboxes: 'Read' (unchecked), 'Trade' (checked), 'Withdraw' (unchecked), and 'Transfer' (unchecked).
- Passphrase:** A text input field with masked characters '*****'. Below it, a red error message states: '4 to 20 characters that contain letters, numbers and "_" only.'
- IP (Optional):** A text input field containing '35.208.90.255'. Above it, a red note says: '*Unlinked API Keys will expire after 90 days *One API Key could link to 20 IP addresses at max'.

At the bottom of the dialog are two buttons: 'Cancel' and 'Next'.

Bot Server IP Address

35.208.90.255

Mandatory IP Restriction

Copy and paste this exact IP into the "IP Restriction" field of the Blofin form to lock the key to our secure trading server.

Key Detail Highlights

Withdrawals

Ensure "Withdraw" and "Transfer" remain **unchecked**.

Our bot only needs to execute trades.

Passphrase

This is **not** your account password. It is a third piece of data needed to authorize the bot.

IP Restriction

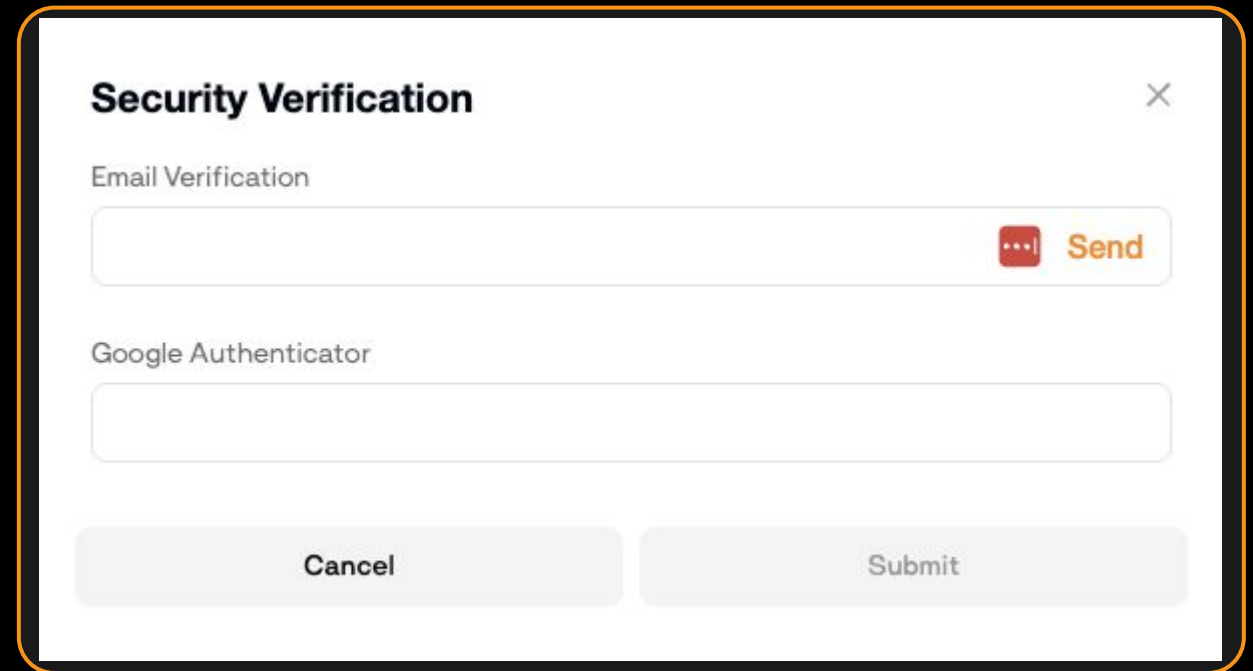

Enter the bot server IP in the restriction field to ensure only our server can use this key.

Step 4: Security Verification (Screen 2 of 3)

Verify Identity

Click "**Send**" to trigger the email verification code.

Enter the code from your email and your **Google Authenticator** (2FA) token to authorize the key creation.

A screenshot of a 'Security Verification' dialog box. The dialog has a title bar with a close button (X) in the top right corner. Below the title, there are two input sections. The first section is labeled 'Email Verification' and contains a text input field followed by a red button with three white dots and the word 'Send' in orange. The second section is labeled 'Google Authenticator' and contains a text input field. At the bottom of the dialog, there are two buttons: 'Cancel' and 'Submit', both in a light gray color.

Confirm

Copy and Save

Copy both your **API Key** and **Secret Key** immediately.

Warning: The Secret Key is only shown once. You will not be able to retrieve it later.

Click "**Confirm**" to finish.

Configuration Checklist

- ✓ Did you use the **Desktop/PC** version of Blofin?
- ✓ Is the **Application Name** set to CCXT?
- ✓ Are **Withdrawals** disabled? (Checked ONLY 'Trade')
- ✓ Did you save your **Passphrase** and **Secret Key**?
